

# MARTINI CLASSIC™

## What is it?

The Martini Classic™ is a lush, analog chorus whose tone is truly intoxicating. With two different speed controls that can be switched on the fly, The Martini Classic™ acts as two completely different pedals in one. The second channel also has a switch for “Vibrato” or “Chorus” to select either chorus or vibrato to add even more tonal combinations to the mix. The Martini Classic™ also features a real bucket-brigade analog delay chip at its core which gives it that true, old-school chorus warmth and swirl. So, belly up to the bar, skip the brew and instead, have yourself a classic Martini Classic™.

## How does it work?

Check to see if your Martini Classic™ came with a 9 Volt battery. If for some reason it didn't, make sure to use an alkaline battery or just use the **9v negative tip DC power jack**. Here's a breakdown of what the controls do...

- On/Off** = Turns the effect on
- Depth** = Master depth control for both channels
- Rate 1** = Rate control for channel 1
- Rate 2** = Rate control for channel 2
- Vibrato** = Sets channel 2 to Vibrato
- Chorus** = Sets channel 2 to Chorus
- Rate 1 or 2** = Switches between the two channels
- In** = You plug your guitar into here
- 9v DC** = **9v negative tip DC power jack**
- Out** = Output to your amp

The “Depth” control works for both channels and is very sensitive to how fast the rate (“Rate 1” or “Rate 2”) is. You can make your Martini Classic™ sound very sickly if you have both your depth and rate up quite a ways so make sure you don't go overboard. For a nice balanced vibrato tone on channel 2, try setting your switch to “Vibrato”, set your “Depth” to about 12 o'clock and your “Rate 2” control somewhere between 12 o'clock and 3 o'clock.

## What if it breaks?

All Tortuga Effects have a **Three Year Warranty**. I want you to be confident in the fact that your pedal will always work, so if you have any problems with it (“problems” do not include dropping it, backing over it with your truck or dropping it and backing over it with your truck) please contact an authorized Tortuga Effects dealer or just contact me directly and I'll get it taken care of. Enjoy your cool new noisemaker!
