

# WEREWOLF CLASSIC™

## What is it?

With the Werewolf Classic™, you won't have to wait for a full moon to transform your tone. Capable of anything from a clean boost to a blues overdrive and even a metal crunch, this monster truly has it all. With two completely different gain circuits, each with dual foot-switchable gain controls, the sonic possibilities are almost endless. The Werewolf Classic™ was also designed to blend seamlessly with a tube amp to enhance its tone and to provide the versatility needed for any style or situation. The Werewolf Classic™ isn't just another distortion box, it's a true tone monster.

## How does it work?

Check to see if your Werewolf Classic™ came with a 9 Volt battery. If for some reason it didn't, make sure to use an alkaline battery or just use the **9v negative tip DC power jack**. Here's a breakdown of what the controls do...

**On/Off** = Turns the effect on

**Volume** = Volume of the effect

**Tone** = Tone

**Drive 1** = Low gain drive control

**Drive 2** = High gain drive control

**Drive 1 or 2** = Toggle between Drive 1 and Drive 2

**Overdrive** = Germanium Overdrive 1

**Distortion** = Germanium Overdrive 2

**In** = You plug your guitar into here

**9v DC** = **9v negative tip DC power jack**

**Out** = Output to your amp

For a great clean boost and overdrive, set the mini toggle to "Overdrive", "Drive 1" at 8:00 and "Drive 2" at 11:00. For a smokin' blues crunch and singing lead, set the mini toggle to "Overdrive", "Drive 1" at 12:00 and "Drive 2" at 3:00. For a hard rock rhythm and metal crunch, set the mini toggle to "Distortion", "Drive 1" at 11:00 and "Drive 2" at 4:00.

## What if it breaks?

All Tortuga Effects have a Three Year Warranty. I want you to be confident in the fact that your pedal will always work, so if you have any problems with it ("problems" do not include dropping it, backing over it with your truck or dropping it and backing over it with your truck) please contact an authorized Tortuga Effects dealer or just contact me directly and I'll get it taken care of.

Enjoy your cool new noisemaker!
