EFFECTS

WEREWOLF™

What is it?

With the Werewolf™, you won't have to wait for a full moon to transform your tone. Capable of anything from a clean boost to a blues overdrive and even a metal crunch, this monster truly has it all. With two completely different gain circuits, each with dual foot-switchable gain controls, the sonic possibilities are almost endless. The Werewolf™ was also designed to blend seamlessly with a tube amp to enhance its tone and to provide the versatility needed for any style or situation. The Werewolf™ isn't just another distortion box, it's a true tone monster.

How does it work?

Check to see if your Werewolf™ came with a 9 Volt battery. If for some reason it didn't, make sure to use an alkaline battery or just use the negative tip DC power jack. At first glance the controls may not seem to make much sense. Here's a breakdown of what they do...

Transform = Turns the effect on

Howl = Volume

Scream = Tone

Maim = Gain 1

Kill = Gain 2

Maim or Kill = Toggle between Gain 1 and 2

I = Overdrive

II = Distortion

Enter = You plug your guitar into here

Feed = 9V power jack

Exit = Well, just guess...

"Howl" and "Scream" are pretty self explanatory when you start turning them. For a great clean boost and overdrive, set the mini toggle to "I", "Maim" at 8:00 and "Kill" at 11:00. For a smokin' blues crunch and singing lead, set the mini toggle to "I", "Maim" at 12:00 and "Kill" at 3:00. For a hard rock rhythm and metal crunch, set the mini toggle to "II", "Maim" at 11:00 and "Kill" at 4:00.

On the inside of the enclosure on the back of the circuit board, there is a trimmer pot marked "Kill". This changes the voicing of the "Kill" channel. All the way clockwise, it will be exactly the same as the "Maim" side but if you back it off counter clockwise, the "Kill" channel will warm up and become smoother.

What if it breaks?

All Tortuga Effects have a Three Year Warranty. I want you to be confident in the fact that your pedal will always work, so if you have any problems with it ("problems" do not include dropping it, backing over it with your truck or dropping it and backing over it with your truck) please contact an authorized Tortuga Effects dealer or just contact me directly and I'll get it taken care of.

Enjoy your cool new noisemaker!
